Somesh & Romesh Khandelwal Co-Founders & Directors

# Story of Future - Started Long Back

**2004**

Somesh and Romesh, two young brothers who were disappointed by India's limited Higher Education opportunities, decided to work for students so that they would not be bound in their academic choices and progression.

**2014**

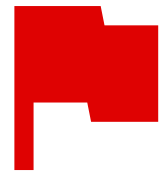

20000 students had positive career impacts through us.

**2022**

Completely digitalized processes, started PAN India to make them reach the rest of the world.

# Problem

## Problem 1

Students want to have a successful career but are unsure of what to consider and what not to consider when making career decisions.

## Problem 2

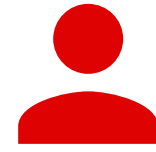

To be eligible for global opportunities, one must prepare a few tests and pass them, but these services are not available through professionals or at an affordable price.

## Problem 3

Access to global study and career opportunities is not distributed democratically; deserving students should be able to get them without struggle.

# Utopia

## **Solution 1**

Student's career progression decisions should be made critically and Scientifically.

## **Solution 2**

Students should get assistance through experts in affordable cost to be eligible for the same.

## **Solution 3**

Global Opportunities must be made available to deserving students in an unbiased manner.

## School of Careers

Get > Set > Study > Grow Globally

MENTOR UNIVERSE is a premium Edtech brand belongs to Mentor Knowledge Management Pvt Ltd. It is a full-service Study Abroad, Test Preparation, and Career Counselling company based in Vadodara, near the bird circle. We prepare students to get their desired scores in IELTS, GRE, GMAT, SAT, which allows them to enrol in top-ranked colleges and universities in Canada, the United States, the United Kingdom, Australia, New Zealand, and Europe with their desired UG, PG or Diploma courses as per their profile, we assist them in SOPs, Scholarships, Visas, Pre & Post Landing arrangements. We also use scientific theories to assist school kids in resolving career-related issues after their 10th and 12th grades.
